

BencoDental

e•ON

Posterior Bulk Fill Flowable Composite

- Low shrinkage stress and outstanding physical properties for long lasting posterior restorations
- Self-leveling base liner composite that allows increments of up to 4mm to be placed in a single step and light-cured in just 10 seconds when using the Universal shade
- Lower water absorption and solubility, due to higher filler content, result in increased hardness

Box of 15-.25gm Capsules	
Item Number	Shade
[6692-797]	Universal
[6692-804]	A2

Product Specifications	
Radiopacity [% Al]	350
Shrinkage [% v/v]	2.54
Compressive strength [MPa]	357
Micro Vickers Hardness [MHV]	100
