

BencoDental™

e•ON®

Unidose Adhesive

- Single-component self-etch adhesive system
- One-step, light-curable application for efficient workflow
- Ideal for bonding direct composite resins to a wide range of dental surfaces including:
 - Dentin and enamel
 - Zirconia and alumina Noble metals and alloys
 - Porcelain and lithium disilicate
 - Other resin materials
- Anti-retraction valves prevent intrusion into the water line
- Ultra-low film thickness of just 5.5 microns ensures optimal fit and aesthetics
- Compatible with light-cured, dual-cured, and self-cured composites—no additional activator required
- Delivers high bond strengths to both direct and indirect substrates

.1ml-Pack of 100
