

# CHOOSE EARTH

## Biodegradable:

Made with active organic microbials that stimulate activity in landfills to break down 90% of the glove in less than 1.5 years.\*\*

## Sustainable:

Help reduce waste and lessen Green House Gas (GHG) emissions.

## Protective:

A smarter choice to protect yourself and the earth.

## Bio Nitrile®

Biodegradable Exam Gloves 300/box

XS (3575) M (3577) \*XL (3579)

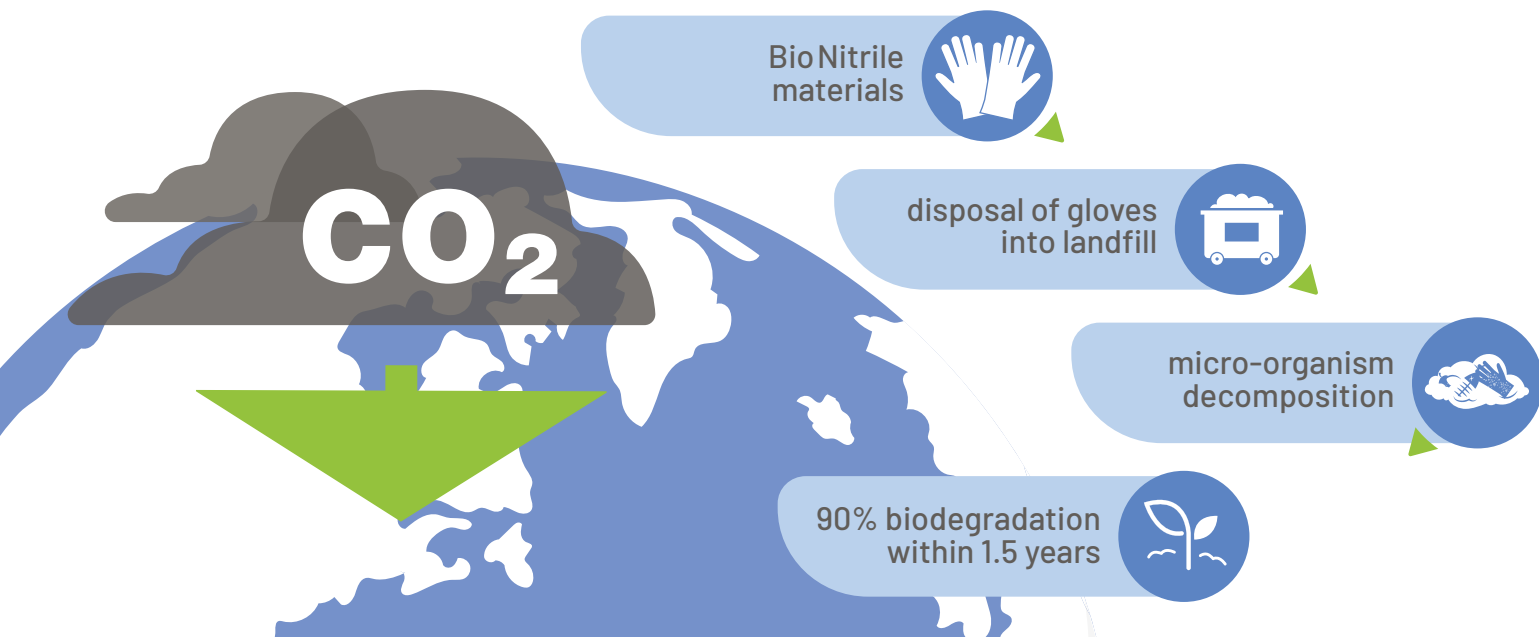

S (3576) L (3578) \*250/box

\*\*per ASTM D5511

# Protective. Sustainable. Biodegradable.

It's time to make a choice against climate change! Cranberry's new BioNitrile is our first step towards global sustainability. Our advance biodegradable materials activates microbial activity to break down gloves in less than 1.5 years. This reduces permanent waste and less greenhouse gas (GHC) emissions to slow down our global impact.

**product information:** 3570 series | 300 gloves/box (XS, S, M, L), 250 gloves/box (XL), 10 boxes/case

material	nitrile	finger thickness	0.06 mm / 2.2 mil
color	blue	palm thickness	0.05 mm / 2.1 mil
length (mm)	240	tensile strength	unaged: 18 MPa
texture	fingertip		aged: 16 MPa

**BencoDental**
