

# Bridge & Implant Floss

- Designed for Advanced Oral Care – Effectively cleans around bridges, implants, and orthodontic appliances where standard floss can't reach
- Dual-Action Cleaning System – Threader tip for easy access, spongy floss for wide spaces, and regular floss for below the gumline
- Gentle on Restorations – Soft fibers remove plaque and debris without irritating gums or damaging dental work
- Versatile Use – Ideal for bridges, implants, orthodontics, and wide interproximal spaces
