

Introducing simplyclear

There are a lot of aligners on the market, but until SimplyClear™, none were created specifically with dentists in mind. orthobrain's breakthrough aligner system provides you with everything you need to grow your practice, including:

360-Degree Support

Our comprehensive support system is designed to help you succeed in orthodontics from day one.

Maximized Doctor Time

Treatment plans crafted by expert Orthodontists so you can have more time with your patients.

Increased Profitability

Generate new revenue by delivering happy, healthy smiles without referring your patients to a specialist.
