

# Sterilization Pouches

- Class 1 sterilization pouch
- Designed with built-in internal and external indicators, removing the need for an additional multi-parameter indicator strip
- Complies with CDC infection control guidelines for reliable sterilization and meets ISO chemical indicator standards
- Features a dual indicator system: left side (blue) for steam sterilization and right side (pink) for chemical sterilization
- Intended for use with steam and ETO sterilization processes only
- Latex-free with lead-free ink
