PROFESSIONAL

RX Toothpaste w/Tri-Calcium Phosphate

- Maximum-Strength 5,000 ppm Fluoride Protection: 1.1% neutral sodium fluoride prescription dentifrice formulated for patients at high risk for caries
- Advanced Remineralization Technology: Functionalized tri-calcium phosphate (fTCP) delivers fluoride, calcium, and phosphate to help rebuild weakened enamel and support lesion remineralization
- Designed for High-Risk Treatment Plans: Ideal for patients with elevated caries risk to help prevent and control tooth decay as part of a comprehensive preventive protocol
- Replaces Conventional Toothpaste: Prescription-strength formula intended for daily use in place of regular toothpaste to provide continuous therapeutic benefit
- Xylitol-Sweetened for Patient Compliance: Pleasant taste while supporting a healthier oral environment
- SLS-Free & Dye-Free Formula: No sodium lauryl sulfate, colors, or dyes—gentle for long-term use and sensitive patients
- Clinically Focused Caries Reduction: High fluoride release combined with calcium and phosphate supports enamel strengthening and improved overall oral health outcomes

4oz tube
[4710-501]
