# SAFETY DATA SHEET

# 1. Identification

1. Identification	
Product identifier	VENTOLIN HFA
Other means of identification Synonyms	VENTOLIN HFA INHALATION AEROSOL * ALBUTEROL INHALATION AEROSOL * ALBUTEROL 134A 200 ACTN * AEROLIN INHALER HFA * FESEMA INHALER HFA * SULBUTAN INHALADOR * SULTANOL INHALER HFA * SULTANOL N INHALER HFA * VENTILAN INALADOR * VENTOLIN EVOHALER 100 MCG 200 DOSE * VENTOLINE INHALER HFA * VENTORLIN EVOHALER * ALBUTEROL SULFATE (SALBUTAMOL SULPHATE), FORMULATED PRODUCT
Recommended use	Medicinal Product.
	This safety data sheet is written to provide health, safety and environmental information for people handling this formulated product in the workplace. It is not intended to provide information relevant to medicinal use of the product. In this instance patients should consult prescribing information/package insert/product label or consult their pharmacist or physician. For health and safety information for individual ingredients used during manufacturing, refer to the appropriate safety data sheet for each ingredient.
Recommended restrictions	None known.
Manufacturer/Importer/Supplier	
COMPANY NAME	GlaxoSmithKline US
Address:	5 Moore Drive
<b>-</b> · ·	Research Triangle Park, NC 27709 USA
Telephone:	+1-888-825-5249 (General Inquiries)
Email:	msds@gsk.com
Website:	www.gsk.com
EMERGENCY CONTACTS	
Telephone:	VERISK 3E GLOBAL INCIDENT RESPONSE +(1) 760 476 3971 (In country) +(1) 760 476 3962 or +(1) 866 519 4752 (International) 24/7; multi-language response
Contract Number:	334878
2. Hazard(s) identification	
Physical hazards	Not classified.
Health hazards	Not classified.
Environmental hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	The mixture does not meet the criteria for classification.
Precautionary statement	
Prevention	Not available.
Response	Not available.
Storage	Not available.
Disposal	Not available.
Hazard(s) not otherwise classified (HNOC)	Caution - Pharmaceutical agent. See section 11 of the SDS for additional information on health hazards. Pressurized container may explode when exposed to heat or flame.

99.83% of the mixture consists of component(s) of unknown acute oral toxicity. 99.83% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 99.83% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

# 3. Composition/information on ingredients

**Mixtures** 

Mixtures			
Chemical name	Common name and synonyms	CAS number	%
1,1,1,2-TETRAFLUOROETHAN	E 1,2,2,2-TETRAFLUOROETHANE C2H2F4 OHS76816 HFC 134 A Norflurane	811-97-2	99.7 - 99.83
ALBUTEROL SULFATE	ALBUTEROL SULPHATE SALBUTAMOL HEMISULPHATE AH 3365F SALBUTAMOL SULPHATE BIS[(TERT-BUTYL)(BETA,3,4-TRIHYDR OXYPHENETHYL)AMMONIUM]SULFAT E	51022-70-9	0.17 - 0.3
4. First-aid measures			
Inhalation	Move to fresh air. If breathing is difficult, trained symptoms develop or persist. Under normal co expected to be an inhalation hazard.		
Skin contact	Immediately flush skin with plenty of water. Tak Get medical attention if symptoms occur.	ke off contaminated clothing	and wash before reuse.
Eye contact	Do not rub eyes. Rinse thoroughly with plenty of physician. Rinse with water. Get medical attention	of water for at least 15 minu tion if irritation develops and	tes and consult a l persists.
Ingestion	In the unlikely event of swallowing contact a physician or poison control center. If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting without advice from poison control center.		
Most important symptoms/effects, acute and delayed	Dusts may irritate the respiratory tract, skin and The following adverse effects have been noted rate and pulse.		material: altered heart
Indication of immediate medical attention and special treatment needed	No specific antidotes are recommended. Treat additional guidance, refer to the current prescri information center.		
General information	In the case of accident or if you feel unwell, see where possible).	ek medical advice immediat	ely (show the label
5. Fire-fighting measures			
Suitable extinguishing media	Water. Foam. Dry chemical powder. Carbon di	oxide (CO2).	
Unsuitable extinguishing media	None known.		
Specific hazards arising from the chemical	Pressurized container may explode when export to health may be formed.	esed to heat or flame. During	g fire, gases hazardous
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full pro	tective clothing must be wo	rn in case of fire.
Fire fighting equipment/instructions	Use water spray to cool unopened containers.		

Specific methodsUse standard firefighting procedures and consider the hazards of other involved materials.General fire hazardsPressurized container may explode when exposed to heat or flame.

## 6. Accidental release measures

Personal precautions,	Keep unnecessary personnel away. Eliminate all ignition sources (no smoking, flares, sparks, or
protective equipment and	flames in immediate area). Wear appropriate protective equipment and clothing during clean-up.
emergency procedures	Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels
	exceeding the exposure limits. Ensure adequate ventilation. For personal protection, see section 8
	of the SDS.

Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Shovel the material into waste container. Following product recovery, flush area with water.
	Small Spills: Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Ground and bond containers when transferring material. Do not re-use empty containers. Avoid prolonged exposure. Use only in well-ventilated areas. Practice good housekeeping.
Conditions for safe storage,	Level 1 Aerosol.
including any incompatibilities	Contents under pressure. The pressure in sealed containers can increase under the influence of heat. Do not expose to heat or store at temperatures above 120°F/49°C as can may burst. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

Not applicable. The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

GSK	-	M. L.
Components	Туре	Value
ALBUTEROL SULFATE (CAS 51022-70-9)	8 HR TWA	10 mcg/m3
	OHC	4
US. Workplace Environmen	tal Exposure Level (WEEL) Guides	
Components	Туре	Value
1,1,1,2-TETRAFLUOROET HANE (CAS 811-97-2)	TWA	4240 mg/m3
		1000 ppm
ological limit values	No biological exposure limits noted for	r the ingredient(s).
posure guidelines		
propriate engineering ntrols	applicable, use process enclosures, lo maintain airborne levels below recomr established, maintain airborne levels to sufficient to maintain concentrations of	sed. Ventilation rates should be matched to conditions. If bocal exhaust ventilation, or other engineering controls to mended exposure limits. If exposure limits have not been to an acceptable level. If engineering measures are not of dust particulates below the Occupational Exposure Limi must be worn. General ventilation normally adequate.
lividual protection measures,	, such as personal protective equipme	ent
Eye/face protection	Not normally needed. Wear safety gla	sses with side shields (or goggles).
Skin protection		
Hand protection	Not normally needed. Wear appropriat	te chemical resistant gloves.
Other	Not normally needed. Wear suitable p contamination.	rotective clothing as protection against splashing or
Respiratory protection	New second second second second second second second	
Respiratory protection		uipment normally required. Use a NIOSH/MSHA approved to dust/fume at levels exceeding the exposure limits.

When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. For advice on suitable monitoring methods, seek guidance from a qualified environment, health and safety professional.

### 9. Physical and chemical properties

3. Thysical and chemical p	
Appearance	
Physical state	Solid.
Form	Aerosol. Inhaler.
Color	Not available.
Odor	Not available.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	-14.8 °F (-26 °C)
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not available.
Oxidizing properties	Not oxidizing.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.

Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	None known. Irritating and/or toxic fumes and gases may be emitted upon the product's decomposition.

## 11. Toxicological information

Inhalation

#### Information on likely routes of exposure

Dust may irritate respiratory system. Prolonged inhalation may be harmful. Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

Skin contact	Prolonged skin contact may cause temporary irritation. Health injuries are not known or expected under normal use.		
Eye contact	Direct contact with eyes may cause temporary irritation. Health injuries are not known or expected under normal use.		
Ingestion	Expected to be a low ingestion hazard. May be harmful if swallowed. However, ingestion is not likely to be a primary route of occupational exposure. Health injuries are not known or expected under normal use.		
Symptoms related to the physical, chemical and toxicological characteristics	Dusts may irritate the respiratory tract, skin and eyes. The following adverse effects have been noted with therapeutic use of this material: altered heart rate and pulse.		
Information on toxicological e	effects		
Acute toxicity	Expected to be a low hazard for u	sual industrial or commercial handling by trained personnel.	
Product	Species	Test Results	
VENTOLIN HFA

13. Disposal consideration	ns	
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not discharge into drains, water courses or onto the ground. Dispose in accordance with all applicable regulations.	
Local disposal regulations	Dispose in accordance with all applicable regulations.	
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.	
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Avoid discharge into water courses or onto the ground.	
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.
